

# National Institute for Materials Science

## *International Cooperative Graduate Program*

**Provides an unprecedented environment  
for your research study**

NIMS, National Institute for Materials Science in Tsukuba, Japan, with its combination of world's top level material characterization infrastructure and distinguished researchers in the field, offers an ideal base in the materials science. You can have unparalleled opportunities for your research activities.

### **About the program:**

- (1) Applicants must be a full time PhD student
- (2) Applicants should be fluent in English both orally and in writing
- (3) Selection of program participants will be made by NIMS Executives
- (4) Max 2 students per year
- (5) Training Duration: from 6 months to 12 months
- (6) Financial support from NIMS – about 115,000 yen per month as a cost of living and pre-paid hotel accommodation for visiting researchers – Ninomiya House (<http://www.jsthhouse.com/ninomiya/index.htm>)
- (7) Access to leading-edge research equipment
- (8) Working in an international environment with the best specialists in the field of material science

### **Application deadline:**

**January 21, 2019**
